Andrew's talk will be straight after the AGM

Building a Flying Museum - TAVAS comes of age

by Andrew Carter

Andrew Carter from The Australian Vintage Aviation Society TAVAS will tell us about the last two Great War Displays that TAVAS has held and the third and final one happening this year. Andrew will share the issues with handling 100% accurate reproduction fighters powered by rotary engines.

Andrew will also talk about the photo shoot with the Bristol F.2B in formation with a Super Hornet – and how you can participate in the next one happening soon!
